## DIRECTORS' REVIEW REPORT

The Board of Directors of WorldCall Telecom Limited ("WorldCall" or "the Company") is pleased to present its review report along with condensed interim standalone and consolidated financial information for the first quarter ended March 31, 2026.

### ECONOMIC OVERVIEW

During the quarter ended 31 March 2026, Pakistan's economy demonstrated continued stabilization and modest growth momentum, underpinned by the IMF's Extended Fund Facility and sustained external inflows. Real GDP growth in Q1-FY26 was recorded at 3.7 percent year-on-year, with high-frequency indicators pointing to steady domestic demand. The State Bank of Pakistan maintained the policy rate at 10.5 percent throughout the period to anchor inflation expectations, while foreign exchange reserves remained comfortable, rising to around US\$16.4 billion with SBP by late March and total liquid reserves exceeding US\$21 billion. Remittance inflows stayed resilient, supporting a current account surplus in January and March, and the IMF staff-level agreement on the third review in March 2026 reaffirmed the projected real GDP growth of 3.6 percent for FY2026.

Inflation moderated overall but showed some volatility, rising from 5.6 percent in December 2025 to 5.8 percent in January 2026 and further to 7.0-7.3 percent by February-March 2026, still largely aligned with the State Bank's 5-7 percent target range for the year. The rupee remained broadly stable against the US dollar, and prudent monetary-fiscal coordination helped manage fiscal pressures amid global uncertainties.

The ongoing geopolitical tensions in the Middle East have introduced additional risks, particularly through potential increases in global oil prices and supply chain disruptions, which may exert upward pressure on domestic inflation and widen the external account deficit in the coming months.

For WorldCall Telecom Limited, this environment of macroeconomic stability, improving digital demand, and a supportive policy framework, particularly within the broader technology sector, creates a favorable landscape for growth. The rapid evolution of the tech sector, driven by increasing digitization, cloud adoption, artificial intelligence, and data-driven solutions, complements the Company's strategic focus on network expansion, broadband growth, and digital services. This convergence of telecommunications and technology capabilities positions the Company to capitalize on emerging opportunities, enhance service offerings, and deliver sustained value creation in an increasingly digital economy.

## 2.7 Going concern assumption

2.7.1 The Company has incurred a loss after taxation of Rs. 147.500 million during the period ended March 31, 2026 (March 31, 2025: Rs. 267.396 million). As at March 31, 2026, the accumulated loss of the Company stands at Rs. 19,111.170 million (December 31, 2025: Rs. 19,014.141 million) and its current liabilities exceed its current assets by Rs. 8,361.623 million (December 31, 2025: Rs. 8,254.086 million). Further, the Company's telecommunication licenses to provide Long Distance & Int'l (LDI) & Fixed Local loop (FLL) services expired in July 2024, and as of the reporting date, the matter concerning renewal of FLL Licenses is pending before the Honorable Islamabad High Court, however, PTA has renewed the LDI License subject to certain conditions, some of them have been assailed by the Company before the Sindh High Court at Karachi, whereas remaining has been fulfilled. The Honorable Court has restrained the PTA from taking coercive measures against the Company. The matter is pending adjudication. These conditions, in conjunction with contingencies and commitments as mentioned in note 13, indicate the existence of material uncertainty that cast significant doubt about the Company's ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Company's management has carried out an assessment of going concern status of the Company and believes that preparation of these financial statements on going concern assumption is appropriate. The management has placed reliance on the following factors:

## 2.7.2 Net Liabilities Position - Risk Mitigation

As mentioned above, there is a net current liability position of approximately Rs. 8.362 billion as on the reporting date, which has the following major components:

Description	Note	Rs in million
Pakistan Telecommunication Authority (PTA)	2.7.2.1	2,547
Claims of parties challenged	2.7.2.2	559
Contract liabilities	2.7.2.3	1,030
Provision for taxation	2.7.2.4	92
		<u>4,228</u>

The management believes that certain balances included in the above amounts do not represent immediately payable liabilities as detailed below:

2.7.2.1 Liabilities towards PTA as incorporated in these financial statements stand at approximately Rs. 2.547 billion which are not immediately payable owing to non-fulfillment of certain conditions relating to the demand of such amounts. These conditions relate to the industry circumstances and Court Orders.

2.7.2.2 This amount represents the amounts owed to certain parties whose claims have been challenged by the Company in various judicial forums for the breach and non-performance of their contractual obligations. Based on the merits of Company's position, the management believes that such amounts may not be immediately payable under the circumstances.

2.7.2.3 Contract liabilities represents advances received from customers and this will be adjusted against future services. Based on which no cash outflow will occur.

2.7.2.4 The Company does not anticipate cash outlays on account of Provision for Taxation, since it has sufficient brought forward losses.

## 2.7.3 Continued Support from a Majority Shareholder

The Company's majority shareholder, World call Services (Private) Limited (WSL) has given assurance to provide continued cash flow support to the Company through its letter to the Company's Board of Directors.

## Note 4

**SIGNIFICATION ACCOUNTING JUDGEMENTS AND ESTIMATES**

Term finance certificates (TFCs) have a face value of Rs. 5,000 per certificate. These TFCs carry mark up at the rate of six months average KIBOR plus 1.0% per annum (2025: six month average KIBOR plus 1.0% per annum), payable quarterly. The mark up rate charged during the period on the outstanding balance ranged from 12.07% to 12.46% (2025: 12.07% to 17.45%) per annum.

IGI Holding Limited (previously IGI Investment Bank Limited) is the Trustee (herein referred to as the Trustee) under the Trust Deed.

The liability of these TFCs has been rescheduled in December 2012 and then on April 03, 2015. During the year 2018, third rescheduling of these TFCs was successfully executed through signing of the Third Supplemental Trust Deed between the Trustees and the Company.

In accordance with the 3rd Supplemental Trust Deed executed during the year 2018, the outstanding principal is repayable by way of quarterly staggered instalments with downward revision in markup of 0.60% i.e. revised markup of six months average KIBOR + 1%. The outstanding markup payable as at the date of restructuring and up to December 20, 2018 is agreed to be deferred and shall be paid from March 20, 2021 in quarterly instalments. 50% of the markup accrued for the period between December 20, 2018 to December 20, 2020 shall be paid on regular quarterly basis commencing from March 20, 2019 and the remaining 50% shall be deferred and paid from March 20, 2021. Markup deferred has been measured at present value. Under the revised term sheet, these TFCs are due to mature on September 20, 2026.

The other main terms included appointment of one representative as a nominee director nominated by the Trustee which has been complied with. Further, 175 million sponsor's shares are pledged for investors which will be released with quarterly scheduled principal repayments proportionately starting from June 2019.

The Company has not paid due quarterly instalments of June 2019 to March 2026 amounting Rs. 1,175 million against principal and Rs. 1,329 million against accrued mark up. In case of failure to make due payments by the Company, Trustee can instruct the security agent to enforce the letter of pledge and sell the quantum of the pledged shares to generate the amount required for the settlement of the outstanding redemption amount.

Due to non-payment of the outstanding instalments under the TFC, the Trustee invoked the Letter of Pledge in 2021 and exercised its right to call 128.2 million pledged shares from the sponsors' account. Out of these pledged shares, 63.98 million shares were disposed of during 2021 and 2022, generating proceeds of Rs. 161.01 million. The proceeds after deduction of applicable charges were appropriated towards settlement of Rs. 99.25 million against the outstanding principal and Rs. 60.25 million against accrued markup during the said period. Subsequently, in October 2025, Pak Oman Investment Company Limited, acting as the Security agent, further disposed of approximately 22.6 million shares out of the 128.2 million shares called in 2021, generating proceeds of approximately Rs. 50.79 million. The said proceeds after deduction of applicable charges were appropriated during the year towards settlement of Rs. 25.81 million against the outstanding principal and Rs. 22.59 million against accrued markup.

These TFCs are secured against first pari passu charge over the Company's present and future fixed assets including equipment, plant and machinery, fixtures excluding land and building with 25% margin in addition to all rights, benefits, claims and interests procured by the Company under:

- a) LDI and WLL license issued by PTA to the Company; and

#### BASIS OF PREPARATION

---

##### 2.1 Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

- 2.2 These condensed interim consolidated financial statements are unaudited.
- 2.3 These condensed interim consolidated financial statements (un-audited) do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements for the year ended December 31, 2025. Selected explanatory notes are included to explain events and transactions that are significant to understanding of the changes in the group's financial statements since the last financial statements.
- 2.4 These condensed interim consolidated financial statements (un-audited) should be read in conjunction with annual audited financial statements for the year ended December 31, 2025. Comparative statement of financial position is extracted from annual audited financial statements for the year ended December 31, 2025 whereas comparative statement of profit or loss, comparative statement of comprehensive income, comparative statement of changes in equity and comparative statement of cash flows are extracted from unaudited condensed interim consolidated financial statements for the quarter ended March 31, 2025.
- 2.5 These condensed interim consolidated financial statements (un-audited) are presented in Pak Rupees, which is the group's functional and presentational currency. All the figures have been rounded off to the nearest thousand of rupees, unless otherwise stated.

## 2.6 Going concern assumption

2.7.1 The group has incurred a loss after taxation of Rs. 148.492 million during the period ended March 31, 2026 (March 31, 2025: Rs. 268.153 million). As at March 31, 2026, the accumulated loss of the group stands at Rs. 19,148.734 million (December 31, 2025: Rs. 19,050.713 million) and its current liabilities exceed its current assets by Rs. 8,399.480 million (December 31, 2025: Rs. 8,291.023 million). Further, the group's telecommunication licenses to provide Long Distance & Int'l (LDI) & Fixed Local loop (FLL) services expired in July 2024, and as of the reporting date, the matter concerning renewal of FLL Licenses is pending before the Honorable Islamabad High Court, however, PTA has renewed the LDI License subject to certain conditions, some of them have been assailed by the group before the Sindh High Court at Karachi, whereas remaining has been fulfilled. The Honorable Court has restrained the PTA from taking coercive measures against the group. The matter is pending adjudication. These conditions, in conjunction with contingencies and commitments as mentioned in note 13, indicate the existence of material uncertainty that cast significant doubt about the group's ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

The group's management has carried out an assessment of going concern status of the group and believes that preparation of these financial statements on going concern assumption is appropriate. The management has placed reliance on the following factors:

## 2.7.2 Net Liabilities Position - Risk Mitigation

As mentioned above, there is a net current liability position of approximately Rs. 8.399 billion as on the reporting date, which has the following major components:

Description	Note	Rs in million
Pakistan Telecommunication Authority (PTA)	2.7.2.1	2,547
Claims of parties challenged	2.7.2.2	559
Contract liabilities	2.7.2.3	1,030
Provision for taxation	2.7.2.4	92
		<hr/>
		<b>4,228</b>

The management believes that certain balances included in the above amounts do not represent immediately payable liabilities as detailed below:

2.7.2.1 Liabilities towards PTA as incorporated in these financial statements stand at approximately Rs. 2.547 billion which are not immediately payable owing to non-fulfillment of certain conditions relating to the demand of such amounts. These conditions relate to the industry circumstances and Court Orders.

2.7.2.2 This amount represents the amounts owed to certain parties whose claims have been challenged by the group in various judicial forums for the breach and non-performance of their contractual obligations. Based on the merits of group's position, the management believes that such amounts may not be immediately payable under the circumstances.

2.7.2.3 Contract liabilities represents advances received from customers and this will be adjusted against future services. Based on which no cash outflow will occur.

2.7.2.4 The group does not anticipate cash outlays on account of Provision for Taxation, since it has sufficient brought forward losses.

## 2.7.3 Continued Support from a Majority Shareholder

The group's majority shareholder, World call Services (Private) Limited (WSL) has given assurance to provide continued cash flow support to the group through its letter to the group's Board of Directors.

## Note 3

### MATERIAL ACCOUNTING POLICIES

3.1 The group's accounting and financial risk management policies and methods of computation adopted in the preparation of these condensed interim (un-audited) consolidated financial statements are the same as those applied in the preparation of preceding annual financial statements of the group for the year ended December 31, 2025.

## 3.2 Changes in accounting standards, interpretations and amendments to accounting and reporting standards

There were certain amendments to accounting and reporting standards which became mandatory for the group during the period. However, these amendments did not have any significant impact on the financial reporting of the group and, therefore, have not been disclosed in these condensed interim consolidated financial statements.

**Note 4****SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES**

The preparation of these financial statements in conformity with approved accounting and reporting standards requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expense. The estimates, associated assumptions and judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making the judgement about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. In preparing these financial statements, the significant judgements made by the management in applying accounting policies and the key source of estimation were the same as those that were applied to the financial statements for the year ended December 31, 2025.

Term finance certificates (TFCs) have a face value of Rs. 5,000 per certificate. These TFCs carry mark up at the rate of six months average KIBOR plus 1.0% per annum (2025: six month average KIBOR plus 1.0% per annum), payable quarterly. The mark up rate charged during the period on the outstanding balance ranged from 12.07% to 12.46% (2025: 12.07% to 17.45%) per annum.

IGI Holding Limited (previously IGI Investment Bank Limited) is the Trustee (herein referred to as the Trustee) under the Trust Deed.

The liability of these TFCs has been rescheduled in December 2012 and then on April 03, 2015. During the year 2018, third rescheduling of these TFCs was successfully executed through signing of the Third Supplemental Trust Deed between the Trustees and the group.

In accordance with the 3rd Supplemental Trust Deed executed during the year 2018, the outstanding principal is repayable by way of quarterly staggered instalments with downward revision in markup of 0.60% i.e. revised markup of six months average KIBOR + 1%. The outstanding markup payable as at the date of restructuring and up to December 20, 2018 is agreed to be deferred and shall be paid from March 20, 2021 in quarterly instalments. 50% of the markup accrued for the period between December 20, 2018 to December 20, 2020 shall be paid on regular quarterly basis commencing from March 20, 2019 and the remaining 50% shall be deferred and paid from March 20, 2021. Markup deferred has been measured at present value. Under the revised term sheet, these TFCs are due to mature on September 20, 2026.

The other main terms included appointment of one representative as a nominee director nominated by the Trustee which has been complied with. Further, 175 million sponsor's shares are pledged for investors which will be released with quarterly scheduled principal repayments proportionately starting from June 2019.

The group has not paid due quarterly instalments of June 2019 to March 2026 amounting Rs. 1,175 million against principal and Rs. 1,329 million against accrued mark up. In case of failure to make due payments by the group, Trustee can instruct the security agent to enforce the letter of pledge and sell the quantum of the pledged shares to generate the amount required for the settlement of the outstanding redemption amount.

Due to non-payment of the outstanding instalments under the TFC, the Trustee invoked the Letter of Pledge in 2021 and exercised its right to call 128.2 million pledged shares from the sponsors' account. Out of these pledged shares, 63.98 million shares were disposed of during 2021 and 2022, generating proceeds of Rs. 161.01 million. The proceeds after deduction of applicable charges were appropriated towards settlement of Rs. 99.25 million against the outstanding principal and Rs. 60.25 million against accrued markup during the said period. Subsequently, in October 2025, Pak Oman Investment group Limited, acting as the Security agent, further disposed of approximately 22.6 million shares out of the 128.2 million shares called in 2021, generating proceeds of approximately Rs. 50.79 million. The said proceeds after deduction of applicable charges were appropriated during the year towards settlement of Rs. 25.81 million against the outstanding principal and Rs. 22.59 million against accrued markup.

These TFCs are secured against first pari passu charge over the group's present and future fixed assets including equipment, plant and machinery, fixtures excluding land and building with 25% margin in addition to all rights, benefits, claims and interests procured by the group under:

- LDI and WLL license issued by PTA to the group; and
- Assigned frequency spectrum as per deed of assignment.
